CLARIFYING SOME CONFUSION

Please note that the registration process for Winter and Spring terms is separate. The Winter registration process will occur in January and is still in progress. If you are already using the PATH Planner to prepare your schedule, you do not need to complete your registration in January. The deadline for submitting your Winter Registration planner is December 9th.

Remember that you can go back and make changes to your plan as needed until January 8th. If you have any questions or need assistance, please contact your advisor or the Center for Career Development.

FRIENDLY REMINDER

If you have not yet submitted your registration plan, we encourage you to do so before the December 9th deadline. If you have any questions or need assistance, please contact your advisor or the Center for Career Development.

PLANNER & REGISTRATION TIPS

Make sure you have your course numbers and CRNs ready before you start the registration process. You can find these numbers on the course catalog or your planner.

Adding your planner to NOVO does not commit you to the classes you have selected. You can go back in at any time to update it. In fact, on the day of registration if your original course selections are unavailable, you can go straight to NOVO and select entirely different classes.

Adding your planner to NOVO also doesn’t register you for the classes you have selected. On December 9th you will need to go into NOVO and finish registering yourself for classes.

Adding your planner to NOVO does not commit you to the classes you have selected. You can go back in at any time to update it. In fact, on the day of registration if your original course selections are unavailable, you can go straight to NOVO and select entirely different classes.

Remember to register for your Winter + Spring courses. This will help you avoid the Spring registration in March, which can be more challenging.

To ensure a smooth registration process, please review your planner and make any necessary adjustments before the December 9th deadline.

HOW MANY COURSES SHOULD I TAKE?

It is recommended that you take a maximum of 15 credits per term (5 academic courses + 10 course options). This will allow you to maintain a balance between academic and personal responsibilities.

Consider adding one of our unique, eight-week, one-credit enrichment courses to your Spring schedule. These courses will help you develop new skills and interests.

VOLUNTARY COURSES

If you have any questions or need assistance, please contact your advisor or the Center for Career Development.
