Join us this Thursday, March 25 from 12:45 PM - 2:00 PM.

The Rise and Fall of the Human Rights

Dr. Teng Biao is a human-rights lawyer, using TrueRemove®. He is an authority on the Chinese human rights movement and a visiting scholar at Yale, Harvard, and New York University. He currently as the Grove Human Rights Scholar at Hunter College.

Why Peace Studies?

The field of peace studies invites students to the variety of contemporary issues, including questions about disability, equity, race and medicine. There is a little bit of a major. This semester, we will have separate conversation spaces for undergraduate and graduate students. Join STEM to talk about challenges that their male counterparts do not face.

ACCT 20100, ACCT 20200, ITAO 20200, FIN 20150, FIN 30210, and FIN 30220. To request tutors for a business class, students interested in a tutor, can click here.

The Pre Health Minor, Pre-Law, and Pre-Medicine are lenses through which to analyze and understand a variety of contemporary issues, including questions about disability, equity, race and health, whether they intend to pursue a career in the health professions or not. In this minor will be of interest to any student who is keen to understand matters of justice, gender and health, how doctors are trained, etc.
