Warm regards,

Math Credit Exam Sign Up

Weekend, August 20. Here is the link to sign up for the Math Credit Exam:

Notre Dame. Math Credit Exams are offered on the Friday of Welcome

Quizzes?

Can I receive credit for Calculus courses by taking the Math Proficiency

Exercises?

I plan to take ACMS 20550 in the fall semester. Should I take the Math

Quizzes?

No, it is not necessary for you to take the Math Proficiency Quizzes if you know

courses required by my major, do I need to take the Math Proficiency

Quizzes?

If I do not plan to take Calculus because I have received AP credit for the

sequence.

It is fine for business, life science and social science students to take courses in

Math, Biochemistry, Chemistry, Math, Physics, Statistics and Engineering

recommended sequence for students who plan to study Calculus 3 and higher

life science (Biology, Environmental Science, Neuroscience, Preprofessional)

and MATH 10560. What are the differences?

MATH 10550, and MATH 10850. The Calculus 2 courses are MATH 10360

At Notre Dame, the Calculus 1 courses are MATH 10250, MATH 10350,

Concepts to be evaluated in the Calculus A Proficiency Quizzes include the

What topics will be evaluated on the Calculus Proficiency Quizzes?

The concepts to be evaluated in the Precalculus Proficiency Quizzes include

Proficiency Quizzes. Students who have taken Calculus in the past should

taken Calculus in the past  should take the Precalculus section of the Math

Proficiency Quizzes. Students who have not taken Calculus in the past, you can stop after the

Scores will appear at the end of each quiz

Follow-up exercises are accessible after you have completed the
